**Kabir Kocchar**  
Managing Partner, Audacity

As an investor carving global corridors, I know the power of connections, and Geeky Vision you're the secret sauce that made 21 by 72 the grand startup feast it was! Geeky Vision, you've etched your mark in this summit's digital DNA, and I'm proud to have witnessed the transformation you brought to the startup cosmos.

As a Managing Partner of a 6M\$ fund, I've seen my share of design and web 'experts', but Geeky Vision redefined the game. Their graphic design mojo is like a creative energy drink – my brand got a makeover that even left me starstruck! And the website? It's not a site, it's a digital VIP lounge where clicks turn into pure magic.
